

Social responsibility

COMMUNITY COMMITMENT

At SSG Group, social responsibility is a fundamental pillar of our business, integrated into our business strategy and organizational culture. We are committed to contributing to community development and protecting the environment, while providing high quality fire safety and protection services to prepare people and communities on how to recognize and manage the types of risks that may occur.

Our commitment to the Community:

- **Education and Information:** We organize information and education sessions for citizens in order to prepare the population and communities on the manifestation of risk types and how to manage them. Also, we collaborate with schools and educational institutions to offer educational programs on how to behave in emergency situations (fires, earthquakes, floods, and providing basic medical first aid).
- **Support for Disadvantaged Categories:** We participate in support programs for vulnerable people, providing resources and support to improve their living conditions.
- **Volunteering:** We encourage our employees to participate in voluntary activities, supporting charitable projects and community initiatives.

ENERGY EFFICIENCY

At SSG Group, sustainability is a core element of our development and operations strategy. We are committed to protecting not only people and their belongings, but also the environment, by adopting sustainable practices that contribute to a greener and more equitable future.

Energy Efficiency and Green Technology

We implement innovative and energy-efficient technological solutions to reduce environmental impact. Among the adopted measures we have:

- **The use of energy efficient equipment:** We choose surveillance equipment and security systems that consume less energy without compromising performance and reliability.
- **Automation and Digitalization:** We adopt automation and digitization solutions to reduce paper consumption and improve operational efficiency.

CARBON EMISSIONS

Reduction of carbon emissions

We are aware of the need to reduce carbon emissions, and in this regard, we have implemented various initiatives:

- **Eco-Friendly Fleet:** We are investing in hybrid vehicles for our response fleet, reducing greenhouse gas emissions.
- **Promoting Alternative Transportation:** We encourage employees to use alternative transportation, such as bicycles or public transport, by providing incentives and incentives for this behaviour.

RECYCLING OF WASTE

Waste Management and Recycling

Responsible waste management is a priority for us. We ensure that all waste generated is properly managed and recycle where possible:

- **Recycling:** We implement recycling programs for used paper, plastics, metals and electronics.
- **Waste Reduction:** We are constantly working to minimize waste produced in all aspects of our operations.

EDUCATION AND AWARENESS

Education and Awareness of Sustainability

We believe that education and awareness are crucial to promote sustainability:

- **Training for Employees:** We organize training sessions for employees on sustainable practices and the importance of protecting the environment.
- **Awareness campaigns:** We run internal and external campaigns to promote the importance of sustainability and community involvement.

By adopting these sustainable practices, SSG Group aims to reduce its impact on the environment and actively contribute to protecting the planet. We are committed to continue to innovate and improve our processes, ensuring a sustainable future for future generations.

ETHICS & INTEGRITY

Ethics and Integrity

Social responsibility goes beyond community and environment. We are committed to conducting all our activities with integrity and in accordance with the highest ethical standards:

- **Transparency:** We maintain transparency in all our operations and communicate openly with all our partners and customers.
- **Fair Treatment:** We ensure a fair and respectful working environment for all our employees, promoting diversity and inclusion.

Through these commitments, SSG Group aims not only to be a trusted service provider but also a responsible corporate citizen, actively contributing to the development of a safer and more sustainable society.
